The DB Desbox – beautifully flexible

High-quality aluminium, a slim design and a variety of installation options. The DB Desbox can be positioned flexibly at the workplace and provides direct access to all types of connections.

The hinged DBK Deskbox – simplicity at work

At the workplace, in conference tables – the range of uses for the hinged DBK Deskbox is immense. Whether for a laptop, a projector or PC, getting connected is extremely easy. Simply open the lid, push the plug in and close the lid. Cables can be led neatly out thanks to the integrated brush bar.

Deskbox DB: good and flexible

Supreme versatility

Convenient and ergonomic access to all devices directly at the workplace is made possible by DB Deskboxes.

There is a large selection of pre-equipped and ready-to-connect Deskboxes available.

The type DB Deskbox which can be raised, offers a maximum degree of flexibility when positioned and fastened to the workplace.

The Deskboxes can be mounted to the tabletop quickly and easily with fastening clamps without damaging the surface.

The hinged DBK Deskbox – simplicity at work

When required, the DBK Deskbox has an easy push-to-open function. The connection devices are then easily accessible.

Via the integrated brush bars, the inserted cables are routed out of the Deskbox when it is closed.

They provide a variety of connection options for all kinds of application areas, including 1 or 2 power circuits, network connections and multimedia connections for TVs and projectors.

The DB Desbox: beautifully flexible

The aluminium housings of the DB Deskboxes with silver-coloured, anodised surfaces impress with their compact construction and elegant design.

The deskboxes of type DB have a width of 179 mm to 209 mm.
